Community of Practice: Promotion Productive Roles in FSP Member Directory

Community of Practice (CoP) About:

A CoP is collaborative learning community organized around people with a shared practice. This CoP is hosted by DMH-UCLA Public Mental Health Partnership for DMH FSP providers to promote productive roles. Through mutual interactions, the CoP will produce resources, relationships, and experiences that impact participant mastery in this area. This member directory enables participants to reach out, problem-solve, and interact with one another between sessions as desired.

Title	Psychiatric Social Worker
Agency Name	Downtown FSP (LA County DMH)
Years in FSP	3 years
What I want the CoP to know	I work primarily with the adult population in Skid Row. The
about my work in FSP	most challenging aspect is engaging clients who have been
	disconnected from services/treatment for several years.
	Although I've been doing direct practice for the past 3 years,
	I'm also interested in learning about research in order to
	inform the work that we do. I look forward to collaborating on
	all aspects while being a part of CoP.

Title	FSP Family Advocate
Agency Name	Child & Family Guidance Center
Years in FSP	1 year 9 months
What I want the CoP to know	I would say my role is more of a Case Manager than a
about my work in FSP	Family Advocate and a lot of my work is with the parents.
	Although, the goals are driven towards my youth clients,
	many of the parents in the FSP program require a lot of
	support and at times, have layers of barriers before they can
1	focus on their child's treatment. In this case, productive roles
	focusing on supportive employment for adults would be
	beneficial for me to learn and have these additional trainings
